

VLADYSLAV KISHCHAK

QA Engineer

2+ years of diverse experience in software testing, defect tracking, and reporting. I am skilled in various testing types, approaches, and test design techniques. I'm experienced in designing test cases and effective QA implementation in all phases of SDLC. Professional experience in reproducing problems, analyzing defects, interacting with the development team in fixing issues, and generating bug reports.

Experience

QA Engineer

Volpis | March 2021- Present
